

Planning a Student Trip is Easier Than You Think

At America Tours & Travel, we walk with you every step of the way—from your first idea to the moment your group returns home.

Step 1: Start the Conversation

Tell us about your vision by requesting a quote through our website! Whether you already have a destination in mind or just a goal (history, STEM, performance, etc.), we'll help shape the perfect trip for your students.

Step 2: Customize Your Trip

After receiving your quote request, we will contact you to build your trip around your needs:

- Destination & travel dates
- Educational goals
- Budget considerations
- Group size

Step 3: Review Your Proposal

You'll receive a proposal based on the mode of transportation and activities you discussed with us. We'll make adjustments until it's exactly what you want before creating your trip's website & registration link.

Step 4: Launch & Promote

We provide everything you need to get students signed up:

- Interest meeting (we can attend to answer any questions)
- Online registration link & QR code
- Parent communication support

Step 5: Easy Registration & Payments

Students can register online and take advantage of flexible payment plans and donation request links. We handle all payment tracking and reminders—so you don't have to.

Step 6: Pre-Trip Support

We stay engaged leading up to departure:

- Pre-trip meetings
- Travel tips & packing guidance
- Final itinerary details
- 24/7 support for questions

Step 7: Travel With Confidence

From departure to return, we're with you. Our team ensures everything runs smoothly so you can focus on your students and the experience.

Bonus for Teachers

Teachers often travel free based on group size—and may qualify for additional incentives depending on participation.

Teachers can join our “Share the Journey” Referral Program and earn \$250 cash or \$300 travel credit toward their next adventure. Bonus: Refer 3 teachers and get a \$1,000 reward.
